New Edition of Fenway Guide to LGBT Health Includes HIV Updates

May 1, 2015

The American College of Physicians (ACP) has released the second edition of *The Fenway Guide to Lesbian, Gay, Bisexual, and Transgender Health*, according to an ACP press release.

The textbook contains 80 percent new content and is written for clinicians, public health professionals, researchers and policy makers. Among the health topics relevant to LGBT people, the guide addresses the latest advances in HIV/AIDS prevention as well as the prevalence of HIV among young men who have sex with men (MSM) and transgender people, notably those of minority communities.

Fenway Health and its research arm Fenway Institute serve the LGBT and HIV communities in Boston's Fenway neighborhood.

The guide is edited by Harvey Makadon, MD, Kenneth Mayer, MD, and Hilary Goldhammer, MS, of the Fenway Institute, and Jennifer Potter, MD, of Fenway Health and Beth Israel Deaconess Medical Center.

The first edition of the guide was published eight years ago. You can order a print or ebook copy on Amazon.com or on the APC website here.
