The Well Project Launches Mobile App for Women With HIV

September 7, 2012

The Well Project, a nonprofit group focusing on women with HIV, has launched its first mobile app, according to a Well Project statement. The app includes HIV basics, treatment information, social issues and access to the “A Girl Like Me” blog. It is a first step in a global initiative to provide women even in the hardest-to-reach areas with information and support in their own languages. The app is available for both Apple and Android mobile devices.
