

3rd International Conference on Optics and Laser Technology

Scitechseries cordially invites you for the [“3rd International Conference on Optics and Laser Technology”](#) (Optics 2026) is scheduled to take place in Berlin, Germany from October 29-30, 2026.

This conference is following the theme **“Innovating Light: Transforming Vision and Technology.”**

[Optics 2026](#) conference is an annual gathering that unites global experts in the field to foster the exchange of the latest insights into factors shaping the advancements, applications, and control of optics and laser technology. Taking place at a pivotal moment, this international conference will primarily focus on recent noteworthy developments in the field. The event is designed to cater to the interests of faculty members, researchers, scientists, engineers, healthcare practitioners, clinicians, industry representatives, and professionals in the optics and laser technology domain. The conference features distinguished keynote presentations, interactive panel discussions, oral abstract presentations, poster sessions, and a diverse array of scientific and industry exhibitors, all contributing to a comprehensive program. The Congress is dedicated to maintaining its reputation for excellence by delivering timely exploration of cutting-edge topics in the ever-evolving realm of optics and laser technology.

We eagerly anticipate your active participation in Optics 2026 as we collectively explore and contribute to the realms of Laser, Optics, and Optoelectronic Technology.

When	October 29 - October 30, 2026
Location	Hans Grade Allee 5 Schönefeld Bei, 12529 Berlin Germany
Venue	Holiday Inn Berlin Airport - Conference Centre
